

01 Hello, please
lift me up

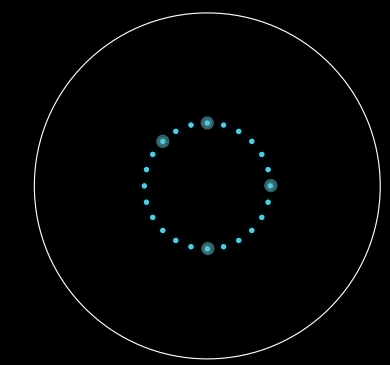

»Luas light pulses weak blue«

02 Hello, nice to
meet you

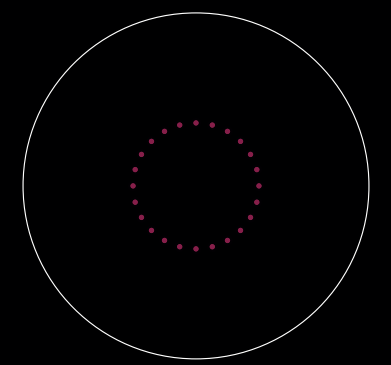

»Lua shines bright«

03 Please **pass me**
to someone else

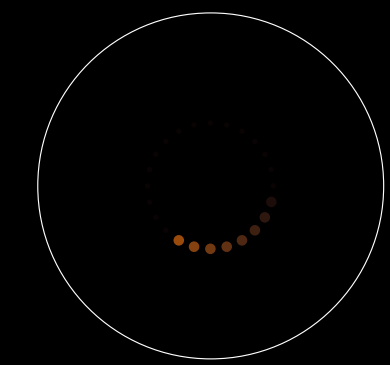

»Lua light slowly fades«

04 I am empty,
charge me

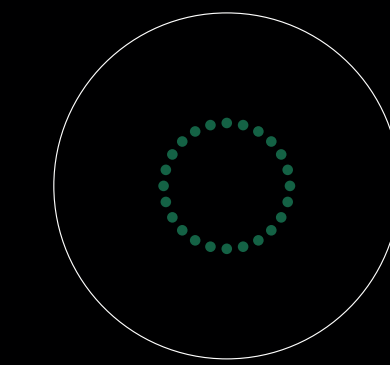

»Luas light pulses red«

05 I am **charging**

»Lua shows her charging status«

06 I am **fully**
charged

»Luas light turns green«

What is Lua?

Lua - journey of enlightenment is a campaign which encourages the social exchange between people. Lua is an interactive sphere that travels around the world, passed from person to person. As a carrier of the campaign she brings people together.

How does Lua work?

Lua lives from the exchange between people. Be also a part of this project and give Lua to someone else, after you get her.

How does Lua communicate?

Lua communicates through light. She will welcome you with a bright shining light and shows when it's time to pass her on. Lua indicates also when it's time to charge her inductively. She shows her charge status by a loading animation.

Be also a part of this project.
